PROFESSIONAL SUMMARY

Junior UX/UI Designer with a Bachelor's Degree in Design (Complutense University of Madrid) and Master's programmes in UX/UI Design and Digital Marketing (CEI). I turn complex problems into functional, accessible and engaging visual solutions, grounded in user research, colour theory, typography and composition. Advanced Figma user with hands-on experience in prototyping, design systems and usability testing, plus a business mindset from my digital marketing background. Resourceful, a fast learner and committed to delivering projects despite unexpected setbacks.

PROJECTS

PalMe · Mobile app for going to events together

2026 · Final project, UX/UI Master's, CEI

- End-to-end UX/UI design using Design Thinking: desk research, benchmarking, survey (**50+ responses**), interviews, user personas, customer journey and MoSCoW prioritisation.
- Information architecture, user flows, wireframes, UI Kit based on Atomic Design and high-fidelity prototype in Figma.
- Usability testing in Maze with **15 users**: **100% task completion** and **0% drop-off**. **AAA contrast (10.03:1)** on all calls to action.

LUMOSIA · Responsive landing page

2026 · Team project

- Designed the landing page and companion app for a fictional product (smart glasses) and built a responsive prototype for desktop, tablet and mobile in Framer.
- Second iteration: redesigned the visual hierarchy, call to action and pricing section to improve clarity and conversion.

NOIZZZ · 360° digital marketing strategy

2026 · Master's thesis, Digital Marketing, CEI

- Launch plan for a fashion brand: keyword research, on-page and off-page SEO in WordPress with Yoast (**100/100 SEO score** in PageSpeed Insights) and campaigns on Google Ads, Meta Ads and TikTok Ads.
- Measurement with Google Analytics 4 and Tag Manager, buyer personas and email marketing with Mailchimp.

EDUCATION

- Master's in UX/UI Design. CEI, Madrid (2025–2026)
- Master's in Digital Marketing. CEI, Madrid (2025–2026)
- Bachelor's Degree in Design. Complutense University of Madrid (2021–2025)

SKILLS

UX: user research, interviews, user personas, customer journey mapping, information architecture, user flows, heuristic evaluation, usability testing, accessibility (WCAG).

UI: wireframing, high-fidelity interactive prototyping, responsive design, design systems, UI kits, Atomic Design, typography and colour.

Tools: Figma (advanced), FigJam, Framer, Maze, Adobe Creative Suite, Whimsical, Notion, WordPress.

Digital marketing: SEO, SEM, Google Ads, Meta Ads, Google Analytics 4, conversion rate optimisation (CRO), email marketing.

Other: basic HTML and CSS, Agile methodologies, generative AI (ChatGPT, Claude, NotebookLM) for research synthesis and data analysis.

LANGUAGES

Spanish: native. English: B2 (upper intermediate).
